

## Connecticut's Concierge Service

Connecticut's experienced economic development team is eager to learn more about your goals and match them with opportunities for growing your business in Connecticut. As part of the state's one-stop Concierge Service, we will provide personalized service and customize a package of support to fit your specific needs — from registration and licensing to financial and technical assistance.

**Advice:** Business development specialists are ready to answer your questions and personally guide you to the assistance you need, help you avoid pitfalls and find the most direct route to progress.

**Support:** Connecticut agencies and programs provide specialized expertise to help smooth your path to success. Major offerings include:

Connections into the ecosystem, major trade associations, and leading companies within primary industries, focusing on C-suite relationship building.

Access to data, including details about the state, demographics, industry information, workforce data.

Assistance with workforce needs, such as hiring employees, setting up collaborations with universities, community colleges, research & development, and other academic initiatives.

Recommendations of professional service advisors (lawyers, accountants, bankers, immigration, insurance) to assist with establishing presence in the state.

Guidance in researching financial assistance, technical programs, and real estate locations (from small office, incubator space to existing facility or greenfields).

Understanding local communities, including municipal economic development leadership, regional resources, cultural organizations, local schools and residential services.

Support for entering the U.S. market, such as strategic partnerships, immigration and visa requirements.
